Subject Index for 1975 Issues of *PE* Magazine

ACCREDITATION

New Jersey SPE Accredits Firms that Meet Employment Standards by Bayard T. McWilliams, P.E., chairman, Accreditation Committee, New Jersey SPE. September, p.44.

ALASKA PIPELINE

Alaskan Pipeline Begins Major Thrust toward Petroleum Basins in Arctic Region by J. T. Kane, *PE* editor. July, p.18.

Scientific Studies Were Key to Trans-Alaskan Pipeline Design. Q&A with Dr. H. R. Peyton, senior staff engineer, Alyeska Pipeline Company. July, p.20.

Alaska Pipeline Insulation: How to Keep Hot Arctic Oil from Overheating while Keeping Steel Pipeline Warm by Lewis W. Saxby, Jr., vice president & general manager, Mechanical Operating Division, Owens-Corning Fiberglas Corp. July, p.24.

ANTITRUST CASE

NSPE Antitrust Case Involving Competitive Bids Reaches U.S. Supreme Court. A special report from NSPE's general counsel and statement of NSPE President Leslie C. Gates. February, p.37.

Excerpts from Opinion of Judge John L. Smith, December 19, 1974. February, p.38.

NSPE's Antitrust Case: A Status Report. March, p.30.

BOARD OF ETHICAL REVIEW

Name of Firm on Baseball Uniforms. February, p.35.

Participation in Strike by Publicly Employed Engineers. January, p.48.

Engineering & Nonengineering Services by the Same Firm. February, p.36.

Exhibit at Association Meetings. January, p.47.

Letterheads—Promotional Statements. July, p.43.

Brochures—Format & Content. July, p.44.

Competitive Bidding—Selection Procedure. May, p.43.

Political Announcement on Firm Stationery. July, p.46.

Expert Witness—Patent Ownership. May, p.44.

CITIES

Guest Comment by Mayor Harry E. Kinney of Albuquerque. February, p.13.

Innovative Technology and the Cities: A Marriage as Yet Unconsummated. A *PE* staff report. February, p.16.

Local Government Needs More Technology than Is Available by Richard Custer, town manager, West Hartford, Conn., president, International City Management Association. February, p.20.

Urban Technology Agent Looks at the Innovative Climate for Management in Akron, Ohio by Erwin L. Herman, technology agent, Akron, Ohio. February, p.26.

An Urban Technology Agent Confronts Maintenance Problems of Older Urban Area in Jersey City, N.J. by John R. Ewen, technology agent, Jersey City, N.J. February, p.29.

An Urban Technology Agent Brings Consulting Background to Virginia County by Lawrence P. O'Keefe, P.E., technology agent, Henrico County, Va. February, p.30.

Technology Options No Different for Citizen Activist Movement than for Governmental Planners. A *PE* staff report. February, p.33.

COAL

U.S. Coal Production May Not Reach Goals Set for 1985 by James G. Phillips, staff correspondent, *National Journal Reports.* November, p.25.

COLLECTIVE BARGAINING

The Engineering Educator & Collective Bargaining by Jack E. Blackburn, P.E., professor of engineering, Arizona State University. February, p.43.

COMMUNITY ACTION PROGRAM

NSPE Members Take Lead in Coastal Zone, State Land Management Planning by William Wanlund, NSPE assistant PR director. October, p.16.

Engineer Involvement through NSPE's Community Action Program by Leonard Arzt, NSPE PR director. November, p.39.

COMPUTERS

Guest Comment by Guido Lorenzotti, president, Olivetti Corporation of America. September, p.15.

Global Productivity Challenges Push U.S. into CAD/CAM Era by Mat Heyman, *PE* staff writer. September, p.20.

European Microcomputer Market Predicted to Grow 60-Fold by 1984. A study by Frost & Sullivan, September, p.25.

Engineering Design through Interactive Graphics by Eli Glazer, P.E., engineering consultant, Digital Equipment Corporation. September, p.26.

Computer Revolution Can Be Predicted Based on Impact of Microprocessors by Earl C. Joseph, staff scientist, Sperry UNIVAC. September, p.34.

CONSUMER PRODUCT SAFETY

Guest Comment by David MacCollum, P.E., president-elect, American Society of Safety Engineers. May, p.13.

Consumer Product Safety Commission Takes Activist Role in Safety Standards by R. David Pittle, commissioner, Consumer Product Safety Commission. May, p.37.

Product Recall and the Facts of Business Life by E. Patrick McGuire, management research, The Conference Board. May, p.38.

EDUCATION

Educators, Practitioners Explore Approaches for an Evolutionary Strategy. A *PE* staff report. January, p.27.

National Conference on Professional Engineering Education Workshop. January, p.28.

The Need for Professional Schools of Engineering by Glen A Fowler, vice president, systems, Sandia Laboratories. January, p.32.

Opportunities and Risks in Post Baccalaureate Engineering Education by Fred J. Benson, P.E., dean of engineering, Texas A&M University. January, p.33.

The Engineering Educator & Collective Bargaining by Jack E. Blackburn, P.E., professor of engineering, Arizona State University, past chairman, NSPE-PEE. February, p.42.

Education for the Engineering Team: 1975 Accredited Programs for Engineers, Technologists, Technicians. April, p.28.

Engineering Technician Education by Walter M. Hartung, P.E., president, Academy of Aeronautics at LaGuardia Airport, N.Y. April, p.41.

ENERGY

Guest Comment by NSPE President Leslie C. Gates, P.E. January, p.9.

Technology's Role in Exploring New Energy Frontiers (1975 Legislative Forum panel). June, p.32.

Resource Optimization Calls for Analysis Based on Life-Cycle Costs by James W. Griffith, P.E., partner, K.G. Associates. June, p.39.

Guest Comment by Senator Lowell Weiker (R-Conn.)—Legislative Forum address. June, p. 17.

Soviet Arctic Oil & Gas: A Second Middle East by A.A. Meyerhoff, consulting geologist, visiting professor, Oklahoma State University. July, p.28.

Guest Comment by Robert L. Parker, president and chairman of the board, Parker Drilling Company. July, p.9.

Guest Comment by Dr. Robert C. Seamans, administrator, ERDA. August, p.11.

Energy Assessor Program: A Conservation Incentive for Designers by Robert J. Rice, P.E., president, Rice, Marek, Harral & Holtz, Inc. August, p.35.

The Energy Audit: Prime Management Tool for Engineers in Industry by Paul C. Greiner, vice president, conservation and energy management division, Edison Electric Institute. September, p.39.

ENGINEERING TEAM

Convergence of Engineering & Technology Programs Spurs Identity Crisis by K.A. McCollum, associate dean, and M.R. Lohmann, P.E., dean, division of engineering, Oklahoma State University. January, p.39.

Who Does What and Why on the Engineering Team by A. Pemberton Johnson, director, Counseling Center, New Jersey Institute of Technology, and David Reyes-Guerra, executive director, Engineers' Council for Professional Development. April, p.23.

Engineer/Technologist/Technician: How the Engineering Team Developed by L.E. Grinter, P.E., dean emeritus, graduate school, University of Florida. April, p.24.

Education for the Engineering Team: 1975 Accredited Programs for Engineers, Technologists, Technicians. April, p.28.

How the Employer Views the Engineering Team by P.F. Allmendinger, vice president, Engineering Power Tool Division, Rockwell International. April, p. 34.

ETHICS

NSPE Board Acts on Ethics Case. March, p.35.

Ethical Standards for the Engineering Profession: Where Is the Clout? by Dan H. Pletta, P.E., university professor emeritus, Virginia Polytechnic Institute. July, p.40.

Personal Ethics: The Key to Professional Conduct by James Romano, P.E., senior vice president, Gannett Fleming Corddry and Carpenter. October, p.32.

Subject Index for 1975 Issues of *PE* Magazine

ACCREDITATION

New Jersey SPE Accredits Firms that Meet Employment Standards by Bayard T. McWilliams, P.E., chairman, Accreditation Committee, New Jersey SPE. September, p.44.

ALASKA PIPELINE

Soviet Arctic Oil & Gas: A Second Middle East by A.A. Meyerhoff, consulting geologist, visiting professor, Oklahoma State University. July, p.28.

Guest Comment by Robert L. Parker, president and chairman of the board, Parker Drilling Company. July, p.9.

Guest Comment by Dr. Robert C. Seamans, administrator, ERDA. August, p.11.

Energy Assessor Program: A Conservation Incentive for Designers by Robert J. Rice, P.E., president, Rice, Marek, Harral & Holtz, Inc. August, p.35.

The Energy Audit: Prime Management Tool for Engineers in Industry by Paul C. Greiner, vice president, conservation and energy management division, Edison Electric Institute. September, p.39.

ENGINEERING TEAM

Convergence of Engineering & Technology Programs Spurs Identity Crisis by K.A. McCollum, associate dean, and M.R. Lohmann, P.E., dean, division of engineering, Oklahoma State University. January, p.39.

Who Does What and Why on the Engineering Team by A. Pemberton Johnson, director, Counseling Center, New Jersey Institute of Technology, and David Reyes-Guerra, executive director, Engineers' Council for Professional Development. April, p.23.

Engineer/Technologist/Technician: How the Engineering Team Developed by L.E. Grinter, P.E., dean emeritus, graduate school, University of Florida. April, p.24.

Education for the Engineering Team: 1975 Accredited Programs for Engineers, Technologists, Technicians. April, p.28.

How the Employer Views the Engineering Team by P.F. Allmendinger, vice president, Engineering Power Tool Division, Rockwell International. April, p. 34.

ETHICS

NSPE Board Acts on Ethics Case. March, p.35.

Ethical Standards for the Engineering Profession: Where Is the Clout? by Dan H. Pletta, P.E., university professor emeritus, Virginia Polytechnic Institute. July, p.40.

Personal Ethics: The Key to Professional Conduct by James Romano, P.E., senior vice president, Gannett Fleming Corddry and Carpenter. October, p.32.

GROWTH

Global Resource, Growth Problems Challenge Uses of Technology in Last Quarter of 20th Century by J.T. Kane, *PE* editor. January, p.14.

Worldwide Development: The New Needs in Food by James P. Grant, president, Overseas Development Council. January, p.20.

The Food Fertilizer Dilemma: A Case for Global Planning and Systems Management by Charles S. Dennison, senior advisor, international industry, United Nations Environment Programme. January, p.24.

GUIDANCE

Career Guidance for Engineering: A Profession-Wide Program by H.L. Wakeland, associate dean, College of Engineering, University of Illinois. April, p.18.

The Junior Engineering Technical Society (JETS) Program by Michael F.X. Gigliotti, president, JETS. April, p.43.

Guest Comment by Edward E. Slowter, P.E., NSPE representative to the National Executive Committee for Guidance. April, p.9.

HOUSING

Housing—The Dilemma of Shelter (1975 Legislative Forum panel). June, p.33.

IMAGE

The Engineering Image and Its Need for Improvement by Steven S. Ross, editor, *New Engineer* magazine. March, p.36.

Professional Engineers Appraise their Profession and the NSPE. A report by Opinion Research Corporation. October, p.42.

INCOME RANGES

NSPE Recommended Income Ranges for 1975-76. November, p. 41.

LICENSING

Licensing & Certification of the Engineering Team by Harry C. Simrall, P.E., dean, College of Engineering, Mississippi State University. April, p.36.

MANPOWER

Manpower Needs for the Engineering Team by John D. Alden, executive secretary, Engineering Manpower Commission. April, p.47.

METRIC

Should U.S. Industry Shift to New Engineering Standards Based on Metric Measurement? by John W. Landis, senior vice president, General Atomic Company. May, p.30.

NSPE BOARD OF DIRECTORS

NSPE Board Reviews, Evaluates National Society Priorities, Role in Profession. March, p.25.

NSPE Board Acts on Ethics Case. March, p.35.

NSPE Directors Approve Tabloid Newspaper, Debate Wide Range of Society Issues. September, p.50.

NUCLEAR POWER

The Nuclear Power Alternative: What Investors Are Looking at in 1975. A special report by Investor Responsibility Research Center, Inc. May, p.16.

Nuclear Power Safety: An Engineering Overview by Carl J. Hocevar, staff member, Union of Concerned Scientists. May, p.25.

The Nuclear Debate: Ralph Nader, Rep. Mike McCormack Dispute Safety Issues at Joint Engineering Legislative Forum. June, p.22.

OSHA

The OSHA Scene in 1975: Small Business Consultation, Economic/Productivity Impact, Noise Standards by Matthew Heyman, *PE* staff writer. March, p.15.

New Noise Standard Brings OSHA, EPA into Loud Conflict by Ray Curran, vice president, David Lee & Associates, Inc. March, p.18.

PHYSICAL FITNESS

Texas SPE President Earns Superstar Medal for His Performance in Fitness Finals by Frank J. Metyko, P.E., immediate past president, Texas SPE. July, p.34.

PRODUCTIVITY

Productivity and Inflation (1975 Legislative Forum panel). June, p.34.

Why the Backlog of Unapplied Technologies in American Industry? by Paul R. Haas, manager, special products, Kearney & Trecker Corp. September, p.30.

PROFESSIONALISM

Professional Attitude toward Engineer Employees Wins Industral Professional Development Award for Dow Engineeriing and Construction by Paul Hull, NSPE-PEI staff director. June, p.45.

The Professional Status of the American Engineer: A Bill of Rights by Robert L. Whitelaw, P.E., professor of mechanical engineering, Virginia Polytechnic Institute and State University. August, p.37.

On Engineering Professionalism by J.B. Nichols, president, United Technical Industries. November, p.47.

Professional Competence: Means and Ends by Alan B. Knox, Continuing Education, University of Illinois at Urbana. November, p.49.

SOLAR ENERGY

Solar Technology Gets New Priority in ERDA Plan for Energy RD&D. A *PE* staff report. August, p.17.

ERDA-48: Creating Energy Choices for the Future by John M. Teem, assistant administrator, Solar, Geothermal, & Advanced Energy Systems, ERDA. August, p.20.

A Solar Energy Industry and the Design Professions by Sheldon Butt, president, Solar Energy Industries Association. August, p.23.

Solar Climate Control: An Emerging New Business by Dr. Peter E. Glaser, vice president, Arthur D. Little, Inc. August, p.28.

Small Business Looks at the Federal Solar Scene & Feels Locked Out by Dr. Jerry D. Plunkett, president, Materials Consultants, Inc. August, p.32.

SOLID WASTE MANAGEMENT

Boston Area Refuse Turns into Steam for GE Plant by J.T. Kane, *PE* editor. November, p.14.

Energy from Municipal Refuse: A Comparison of Ten Processes by Dr. Helmut Shulz, P.E., director, Urban Technology Center, Columbia University. November, p.20.

Resource Recovery: The Economics and the Risks by James G. Abert, vice president of R&D, National Center for Resource Recovery. November, p.29.

Nashville Confronts Technical, Economic Problems in Refuse-to-Energy by Carl Avers, general manager & chief engineer, Nashville Thermal Transfer Corporation. November, p.32.

Guest Comment by Walter MacAdam, P.E., senior engineering consultant, Wheelabrator-Frye Corp. November, p.9.

TRUCK WEIGHT

NSPE Board Asks Congress to Reconsider Action on Heavier Trucks by Robert Doyle, NSPE legislative counsel. March, p.30.

Guest Comment by Rep. Edward I. Koch, (D-NY). March, p.9.

VALUE ENGINEERING

Value Engineering Now Included by EPA in Construction Grants Program by Hal Tufty, editor & publisher, *Value Engineering & Management Digest.* June, p.36.

WATER POLLUTION

Environmental Constraints Challenge Designers of Shoreline Community Near Kansas City, Missouri by Glenn C. Gray, P.E., managing partner, Larkin & Associates, Consulting Engineers. June, p.42.

Guest Comment by Sam L. Warrington, P.E., president, Water Pollution Control Federation. October, p.9.

R&D Priorities on the National Agenda for Water Pollution Control by R.S. Engelbrecht, chairman, Research Committee, Water Pollution Control Federation. October, p.21.

Engineers Confront EPA & PL 92-500: Or, Adrift on Bureaucratic Seas on the S.S. Red Tape by H. Ben Faulkner, P.E., chairman, NSPE-PEPP Committee on EPA. October, p.24.

An EPA Response by Alvin Alm, assistant administrator, planning & management, EPA. October, p.27.

Wastewater Equipment Industry Confronts Cash Flow Problems by John S. Autry, president, Water & Wastewater Equipment Manufacturers Assoc. October, p.30.

EPA Regulatory Overkill Hit by Engineers. November, p.52.
